CORRIGÉ

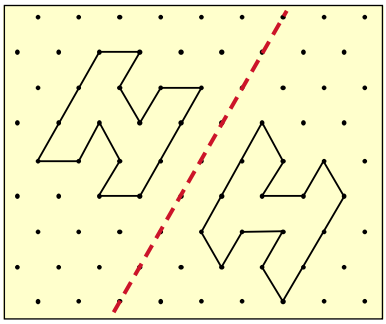

Rouge : axes de symétrie axiale.
Bleu : centres de symétrie centrale.

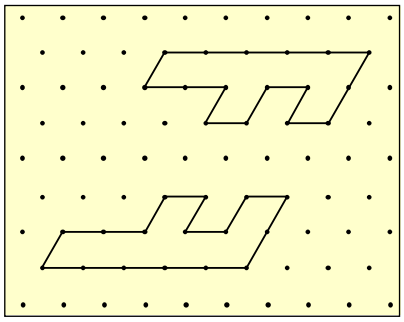

Symétries

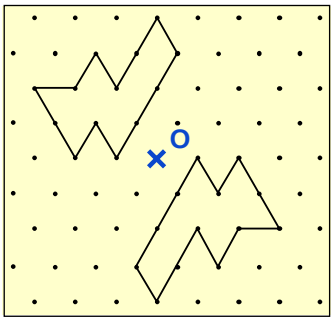

Dans chacun des cadres proposés, les deux figures se déduisent l'une de l'autre par une transformation.

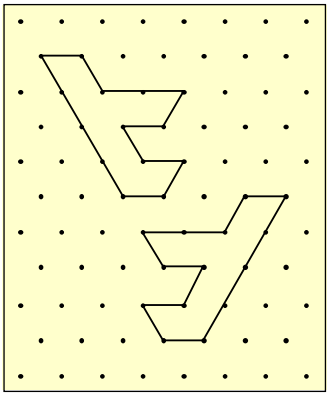

Si cette transformation est une :
- symétrie axiale, trace son axe,
- symétrie centrale, trace son centre.

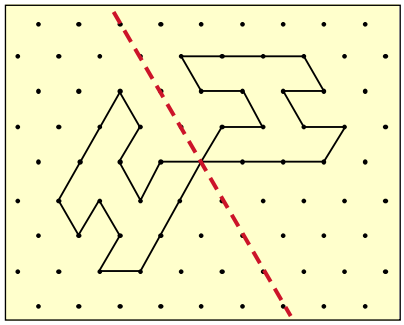

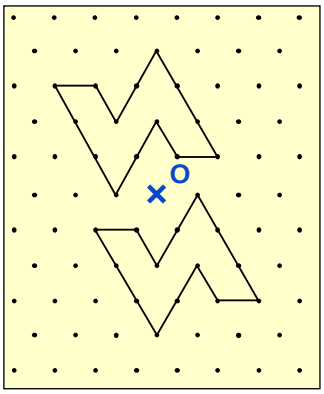

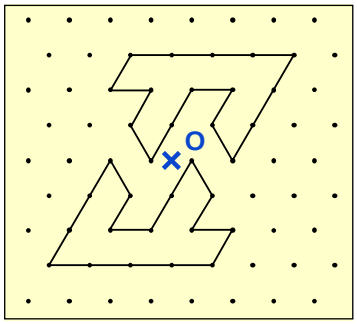

Ni axiale ni centrale.

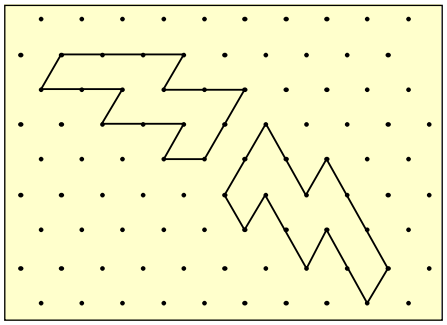

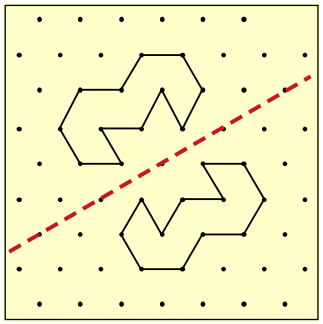

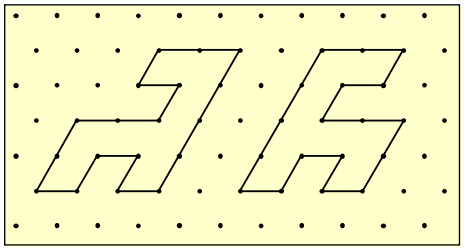

Ni axiale ni centrale.

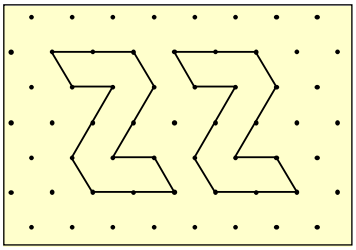

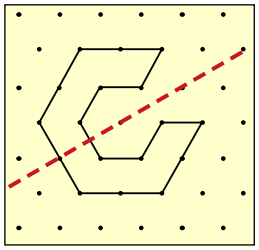

Ni axiale ni centrale.

Ni axiale ni centrale.

Translation.

L'usage d'instruments n'est pas nécessaire.
